

## Dr. Anthony Urbanek, D.D.S., M.S., M.D

CEO & FOUNDER – URBANEK TMJ DEVICE & PROTOCOL

[www.urbanektmj.com](http://www.urbanektmj.com)

Dr. Anthony P. Urbanek, D.D.S., M.S., M.D is an Oral and Maxillofacial Surgeon and pioneer in the treatment of Temporomandibular Disorders. After 30 years of inconsistent results using all the variations of surgery and watching patients and his dental colleagues suffer without a solution, he decided to forego TMJ surgery and began to figure out why no one had been able to solve the TMD conundrum.

His research led to the invention of the Urbanek TMJ Device & Protocol, which has been proven to be 85-95% effective according to an independent university study, and without the need for surgery or medications. With over 4,000 successful cases to date, FDA-cleared medical device has recently been featured in numerous publications, blogs, and podcasts. He is now focused on educating the dental profession on ways they can eliminate TMD for their patients.
